13. The Leaders in Technology Program (LIT) at CES allows high level public policy makers and technologists to learn from more than 3,900 exhibitors and thousands of new products that contribute to a dynamic industry that supports an expected $1 trillion in retail sales worldwide. The program provides information and insight to assist officials in evaluating federal policies that affect the consumer technology industry. The LIT program advances the mission of CTA to provide practical resources to help companies grow every facet of their business. CTA is where technology connects, collaborates and contributes. CTA helps companies succeed through research, events and an extensive network of councils and working groups covering everything from public policy to technology standards.

21. The expense for attendance at CES 2020 exceeds the federal per diem rate. All meals are standard conference meals, open to all Leaders in Technology participants and are held without regard to congressional participation. Price is specified by the catering service. Meal costs are fixed for all conference attendees at the negotiated rates set by the venues.

The lodging rate of $399 also exceeds the federal rate. This is due to that fact that Las Vegas hotels are at capacity during CES. This lodging rate is available to all CES attendees and was the best available negotiated rate for this property. The hotels are chosen for the accommodation requirements for (1) a large group of over 180,000 attendees and (2) easy access to the CES show floor, conference sessions and meeting space.
