July 7, 2022

Leah Hill
The Office of Sen. Cory Booker
717 Hart Senate Office Building
Washington, DC 20510

Dear Leah,

On behalf of the United Nations Foundation, I would like to extend an invitation to you to participate in a congressional learning trip to Nigeria to observe how U.S. and UN investments in child immunization, pandemic preparedness, and COVID-19 response are working together to eradicate polio, strengthen health systems, and improve global health security. The trip will depart from Washington, DC on Saturday, August 13 and leave Abuja, Nigeria on Friday, August 19.

Over the course of the trip, the delegation will learn about the impact of decades of U.S. government investment in global child immunization in the country, with a particular focus on the global polio eradication program implemented in partnership through CDC, USAID, UNICEF, and WHO.

Not only have these investments brought us to the brink of polio eradication, they have also horizontally strengthened national public health systems and global health security. To name just a few areas, polio assets have bolstered routine child immunization services, vaccine delivery systems, cold chain infrastructure, and last-mile health workforce, as well as strengthened lab diagnostic capacity and disease detection capabilities.

All of these assets were called on to effectively spearhead the country's response to COVID-19 over the past two years and are also assisting with the delivery of COVID-19 vaccines. Examining how these polio assets have strengthened country public health infrastructure, immunization delivery, and pandemic preparedness and response more broadly could be particularly informative to your work in Congress.

We would be honored if you would consider joining us for this unique learning opportunity. We kindly note that you must have received all necessary doses of an authorized COVID-19 vaccine plus a booster (if applicable) to participate in this trip. If you are interested in joining, please let us know as soon as possible and kindly no later than Tuesday, July 5, as space is limited.

We hope you will take this opportunity to learn more about USG and UN work in these critically important areas of global health, and look forward to your reply.

Sincerely yours,

Peter Yeo
