Dear Judd,

On behalf of World Food Program USA, I would like to extend an invitation for to you to participate in a congressional learning trip to Kenya to observe the work of the United Nations World Food Programme (WFP) on October 1-6, 2022.

The United Nations World Food Programme is the leading humanitarian organization saving lives and changing lives, delivering food assistance in emergencies and working with communities to improve nutrition and build resilience. In Kenya, WFP provides cash and food transfers to refugees, provides logistical support to small-holder farmers, and supports national and county government authorities in their safety net and nutrition programming and emergency preparedness.

Over the course of this trip, the delegation will conduct multiple site visits, including to a refugee camp, a food distribution center, water security projects, and various other resilience programming activities. Delegates will also engage in high-level meetings, including with representatives from the Kenyan National Government and Department of Agriculture.

We would be honored if you would consider joining us for this unique opportunity. We kindly note that you must have received all necessary doses of an authorized COVID-19 vaccine plus a booster (if applicable) to participate in this trip. If you are interested in joining, please let us know as soon as possible.

We hope you will take this opportunity to learn more about WFP's work and look forward to your reply.

Best regards,

World Food Program USA Learning Trip to Kenya Answers to PSTCF Questions 2, 5, 13, 18, and 22

2. Description of the trip

Over the course of this trip, the delegation will be afforded a close-up view of efforts by the United Nations World Food Programme (WFP) and partners in Kenya as they work to reduce food insecurity in the country with support from the United States. Kenya provides an opportunity to view a wide range and scope of WFP interventions, including general food distribution, humanitarian supply chain and logistics, support to refugees, malnutrition prevention and resilience building activities. The delegation will develop a better understanding of how, through partnership, these and other interventions are contributing to improve food security outcomes in the country.

The delegation will conduct multiple site visits, including to the Kakuma Refugee Camp in the northwestern region of Kenya where WFP is providing refugees with unconditional food and nutrition assistance through cash and food transfers and assisting refugees through livelihood projects (beekeeping and poultry operations). Additional site visits in the northeastern city of Isiolo, Kenya will allow the delegation to see WFP school feeding operations, malnutrition prevention interventions and market-access programs designed to assist smallholder farmers.

Near the nation's capital, Nairobi, the delegation will meet with representatives from the Kenya Department of Agriculture and Country Capacity Strengthening unit. They will also see innovations like "Food for Training", an initiative that provides food and income while participants learn IT skills and are connected to companies that provide online work; the delegation will also visit WFP's hydroponics program in the Kibera Slum, which is helping to diversify diets and livelihoods through innovative farming methods.

Altogether, delegates will leave with a more complete understanding of WFP's holistic work and coordination with partners like United Nations High Commissioner for Refugees (UNHCR), Food and Agriculture Organization of the United Nations (FAO), and the United Nations International Children's Emergency Fund (UNICEF)—much of this made possible because of U.S. funding through the U.S. Agency for International Development (USAID) and through specific accounts like Title II, the Emergency Food Security Program (EFSP) and the Bill Emerson Humanitarian Trust.

5. Name and title of Senate invitees

Katherine Thomas, Senior Professional Staff
Senate Agriculture Committee

Claire Borzner, Professional Staff
Senate Agriculture Committee

Judd Gardner, Legislative Director
Senator Jerry Moran

Anna Whitney, Legislative Aide
Senator Cory Booker

13. Briefly describe the stated mission of each sponsor and how the purpose of the trip relates to that mission:

World Food Program USA (WFP USA) is a U.S.-based non-profit organization dedicated to building support within the U.S. for the United Nations World Food Programme (WFP). World Food Program USA works with U.S. policymakers, corporations, foundations, and individuals to help provide financial and in-kind resources and develop policies needed to alleviate global hunger, particularly in extremely food insecure countries such as Kenya.

The United Nations World Food Programme in Kenya receives considerable support from USAID and the U.S. Department of Agriculture. This trip will allow delegates to see a wide range of WFP programming in the field, from general food distribution to school feeding to support to refugees.

18. Reason for selecting the location of the event or trip:

A decade of rapid economic growth, the inclusion of food and nutrition security in the government's 'big four' priorities, constitutional changes that devolve administrative responsibilities to county governments and the country's openness to innovation offer opportunities for the achievement of Sustainable Development Goal 2 on Zero Hunger and improved nutrition in Kenya. However, even though the country has recently acquired lower-middle-income status, the increased wealth has not benefited all Kenyans equally. Over one third of the population still lives under the international poverty line and social, economic and gender disparities remain. Access to adequate quantities of nutritious food remains a challenge for many, especially in arid and semi-arid regions which make up 80 percent of the country's land area.

The friendship between the Republic of Kenya and the United States dates to the dawn of Kenyan independence. As an important partner in East Africa, Kenya is a significant recipient of U.S. foreign assistance. For nearly 60 years, USAID has worked closely with the Kenyan government, Kenya's private sector, and the Kenyan people to achieve humanitarian and development outcomes. The United Nations World Food Programme is a major partner of the United States in implementing international food assistance and agricultural development

programs in the country. It offers delegates an opportunity to see a wide range of humanitarian and development initiatives in one place.

22. Describe the type and class of transportation being provided. Indicate whether coach, business-class or first-class transportation will be provided. If first-class fare is being provided, please explain why first-class travel is necessary:

Within Kenya, the delegation will be traveling one-way between Nairobi and Kakuma, Kakuma to Isiolo and Isiolo to Nairobi via chartered United Nations Humanitarian Air Service (UNHAS) flights. This is the only way to travel between these destinations on the given dates. UNHAS, which is managed by the World Food Programme (WFP), offers safe, reliable, cost-efficient, and effective passenger and light cargo transport for the wider humanitarian community to and from areas of crisis and intervention. UNHAS responds to the need for access to the world's most remote and challenging locations, often under precarious security conditions, where no safe surface transport or viable commercial aviation options are available. UNHAS only offers coach travel classes.

For land travel in country, WFP USA is hiring multi-passenger pickup trucks and small passenger vans for safe passage to the various sites in the Nairobi, Kakuma, and Isiolo regions.
