August 26, 2022

Dear Cole,

It is my pleasure to invite you to join a Congressional staff delegation trip to the United Arab Emirates (UAE) to study advanced energy technologies this October 1-8, 2022. Our aim is to strengthen the US-UAE energy relationship and demonstrate how a cohesive national energy strategy and concerted public-private effort can lead to impressive results.

The delegation will include senior Congressional staff with policy work before the US Senate Committees on Energy & Natural Resources, Agriculture, Appropriations, and Environmental & Public Works, as well as the US House Committees on Energy & Commerce, Ways & Means, Science, Space and Technology, Select Climate and Appropriations. You, along with your colleagues, play an instrumental role in driving American energy policy and international engagement. This will provide you with an opportunity to learn more about the impressive advancement in energy one of our key allies in the Gulf has made and see some innovative technologies and facilities firsthand.

Potential meetings include discussions with Mohamed Al Hammadi, Chief Executive Officer of Emirates Nuclear Energy Corporation; H.E. Suhail Al Mazrouei, Minister of Energy and Industry; H.E. Mariam Almheiri, Minister of Climate Change and Environment; Abu Dhabi National Oil Company executives, and others. Site visits will likely include: the Barakah Nuclear Facility, the first commercial nuclear power station in the Arab World; the Al Reyadah Carbon Capture and Storage (CCS) project, the world's first steel carbon capture project; and the world's largest 'premium aluminum' producer Emirates Global Aluminum (EGA).

For further information or any questions you may have, please contact Katie Kenney at kkenney@atlanticcouncil.org. We sincerely hope you will join this trip in October.

Sincerely,

A handwritten signature in black ink, appearing to read 'Reed Blakemore'.
