Congressional Staff Network for Economic Advancement
August 23 – 24, 2022, Boston, Massachusetts

Question #2 Description of the trip:

The Congressional Staff Network for Economic Advancement (CSN) brings together a bicameral, bipartisan group of senior Congressional staff to focus on policy issues at the core of economic mobility: K-12 education, postsecondary education, workforce development, and poverty alleviation. The purpose of this trip is to examine high quality and innovative education, workforce training, and human services programs that focus on the economic needs of the Boston metro area, its employers, and its people. Staff will see program models designed to close opportunity and wealth gaps while meeting the skill needs of the region's critical industries firsthand. They will hear from the stakeholders involved in developing and implementing these efforts, including state and local officials, leading employers, and community college leaders.

Question #12 Role of Sponsor:

Jobs for the Future (JFF) identifies sites of interest and priority topics to set the direction for site visit programming, including featured programs and initiatives based on their evidence base, scalability, and quality. JFF develops and executes the agenda, coordinates logistics for the trip, and serves as the point of contact for staff. JFF will use grant funding from the Lumina Foundation and the Bill & Melinda Gates Foundation to support the Congressional Staff Network and its site visits.

Question #13 Mission of Sponsors:

JFF's mission is to advance education, workforce development and poverty alleviation programs and policies that expand opportunities for youth and adults who are living in poverty or who are disconnected from school and work, so they may attain the education, training, and credentials necessary to find good jobs and family sustaining careers. JFF's work is informed by research, analysis, and best practice.

JFF's mission supports the purpose of the trip: highlighting innovative, evidence-based programs and policies that drive economic mobility.

Question #14 History of Sponsors:

JFF has sponsored trips and events for Congressional staff for over 13 years. Examples of this work include numerous DC-based forums and site visits where senior congressional staff see high quality workforce programs first-hand and learn from experts and practitioners on the ground about the impact of federal policy in their fields. Visits have included travel to: Charlotte, NC; Bridgeport, CT; Cincinnati, OH; Madison, WI; Philadelphia, PA; Detroit, MI; Wichita, KS; Nashville, TN; Seattle, WA; Eastern KY; Fredericksburg, VA; Detroit, MI; Memphis, TN; Denver, CO; and the Shenandoah Valley region of VA; as well as virtual "visits" to San Diego, CA, and Texas. The purpose of these trips (and the Network) is to provide in-depth learning opportunities for staff on workforce, education, and economic security issues.

Question #15 Other Educational Activities of Sponsors:

JFF works with partners around the country to design and drive the adoption of education and career pathways that lead to college and careers, especially for individuals struggling to succeed in today's economy. JFF improves pathways from high school to college to family-sustaining careers through relevant technical assistance, research, policy development, communications, and by hosting events, including national conferences.

Question #16 Good Faith Estimates for Senate Travel and Meal Expenses:

Transportation: Round trip coach flight from Washington, DC (DCA) to Boston, MA (BOS) = \$180 per person. On the ground transportation via chartered coach bus in Boston = \$120 per person. Total transportation expenses = **\$300 per person.**

Lodging: Lodging at the Omni Parker House for one night = **\$229.00 per person** (under the government per diem rate of \$264 per night)

Meals: Meals for two days = **\$158.00 per person** (in line with per diem)

Question #18 Reason for Selecting Location

JFF selected Boston, Massachusetts for this site visit because of its innovative workforce development and education efforts. The Boston area is known for how system leaders engage employers and collaborate across sectors to create viable pathways to quality, automation-resilient jobs in high-demand industries. These efforts are rooted in a deep understanding of the factors that contribute to Boston's racial wealth gap. The city's leaders are leveraging the education and workforce systems to drive economic uplift for all Bostonians. System leaders are working together to expand on-ramps to quality jobs via strategies including short-term credentialing, sector-based approaches to training, and work-based learning.

The visit will also highlight partnerships that support student success such as early college high schools, dropout re-engagement programs, and work-based learning. These models for career-connected learning, sector-based skill development, and equity-focused economic growth initiatives will shed light on K-12, higher education, workforce development, and human services policy.
