Dear Adrian,

The American Lands Project (ALP) appreciates your interest in learning more about America's Arctic. The 19.6 million-acre Arctic National Wildlife Refuge and 23 million-acre National Petroleum Reserve- Alaska (NPR-A) form an exceptional and unique landscape. The Gwich'in and Iñupiat people have been stewards of these lands since time immemorial, and still depend heavily on the region's subsistence resources. Both landscapes provide critical habitat to polar bears, caribou, musk ox, and hundreds of species of migratory birds.

ALP will be hosting a trip to America's Arctic from August 12th - August 19th, with the 12th and 19th as travel days to/from Fairbanks, Alaska. We believe that this fact-finding trip will provide a valuable opportunity to see and experience first-hand this remote arctic landscape and better understand the dynamic human and natural systems at play in the region. We would like to invite you to join us.

In addition to visiting some of our nation's most remote and vast public lands in the Arctic National Wildlife Refuge, trip participants will also have the opportunity to learn about natural systems, climate impacts, Alaska Native communities, and history and land use policy of America's Arctic region.

The trip will be fully sponsored by ALP, including all travel, lodging, and meals, and we have developed the itinerary as described above. ALP is experienced in crafting educational trips that adhere to all congressional ethics requirements, and we prepare all necessary paperwork and support the required review processes.

We hope that you will consider joining us for this trip to the Arctic, and would be happy to connect by phone or video conference with you to provide additional information and answer any questions you may have. Thank you for your consideration.

Sincerely,

Armando Rojas
