AMERICAN LANDS PROJECT

Dan Dudis
Majority Staff Director
Senate Committee on the Budget
624 Dirksen Senate Office Building
Washington, DC 20510

Dear Dan,

The American Lands Project (ALP) appreciates your interest in the Arctic National Wildlife Refuge. The 19.6 million-acre Arctic National Wildlife Refuge is an exceptional and unique landscape. The Iñupiat and Gwich'in people have been stewards of this land from time immemorial, and both groups still depend heavily on the region's subsistence resources. The Arctic Refuge provides critical habitat to polar bears, caribou, musk ox, and hundreds of species of migratory birds.

Land use policy for the Arctic Refuge has varied significantly for many decades. In January 2015, the US Fish & Wildlife Service announced its revised Comprehensive Conservation Plan for the Arctic Refuge that recommended a Wilderness designation for the Coastal Plain area. Later in 2017, legislation was passed that instead opened the Coastal Plain to oil and gas development, and a lease sale was completed in January 2021 with a second lease sale mandated to be held by December of 2024.

We believe a fact-finding trip to the Arctic National Wildlife Refuge would provide you a valuable opportunity to see and experience first-hand this remote arctic landscape and better understand the dynamic human and natural systems at play in this area.

We would like to invite you to join ALP for a trip to the Arctic Refuge from August 5th - August 11th, 2024 (On the ground in the Arctic Refuge from August 6th - August 10th). The trip will be fully sponsored by ALP, including all travel, lodging, and meals. Attached is an itinerary for the trip, which includes opportunities to experience some of the most remote country in the United States and learn about Alaska Native communities, natural systems, economic opportunities, energy and climate issues, and the history and land use policy of the Arctic National Wildlife Refuge.

We hope that you will consider joining us for this trip to the Arctic and would be happy to connect by phone or video conference with you to provide additional information and answer any questions you may have. Thank you for your consideration.

Sincerely,

Armando Rojas
Program Manager

- **8:00 a.m. - 9:00 a.m.** Breakfast

- **9:00 a.m. – 10:30 a.m.** Review the background and history of the National Petroleum Reserve- Alaska (NPR-A), including initial designation in 1923 as an emergency oil supply for the U.S. Navy, Navy management of the land until the area was conveyed to the Department of the Interior in 1976 in accordance with the Naval Petroleum Reserves Production Act, and Bureau of Land Management (BLM) management from that conveyance until present day. Discuss the seven Special Areas designated within the 23-million-acre landscape and the ecological importance of each as important habitat for polar bears, seals, walrus, birds, and caribou herds that have sustained the Native people of Alaska's North Slope for over 10,000 years.

- **11:30 a.m. - 12:30 p.m.** Working Lunch: Review estimates on the quantity of methane stored in permafrost in the Arctic along with recent scientific studies analyzing the climate inputs associated with a warming Arctic. Arctic landscapes are a major reservoir of this greenhouse gas, and rising temperatures have been accelerating release from existing stores in the permafrost. Overview of the role of the latest survey data on caribou population counts and fluctuations over time. The Working Group is composed of subsistence users, other Alaska hunters, reindeer herders, hunting guides, transporters and conservationists, with agency staff, biologists and natural resource managers serving in an advisory capacity. The Western Arctic Caribou Herd Working Group meets annually to evaluate the health of what until recent years has been Alaska's largest caribou herd, and also works to identify concerns, request information, and advocate for actions that will conserve and benefit the herd.

- **10:30 a.m. – 11:30 a.m.** Discussion: Overview of the Alaska Permanent Fund. The Permanent Fund was created in 1976 via an amendment of the state constitution to help manage the growing state income from oil and gas development. It mandates that at least 25 percent of all mineral lease rentals, royalties, royalty sale proceeds, federal mineral revenue sharing payments and bonuses received by the State be deposited into the Fund. The Permanent Fund also allows for the distribution of dividend checks to Alaska residents.
