## Purpose and Details

Provide a brief description of the trip.

The trip will be to show the congressional/committee staffers from multiple SENR offices and SENR committee the landscape included in America's Red Rock Wilderness Act (S1310/H.R.3031), legislation that would protect over 8 million acres of wilderness in Utah. We will hold discussions with local stakeholders and elected officials on the legislation, discuss the RS2477 and travel management issues throughout the region, interference in the wilderness movement in Utah by the Utah delegation, recreation-based economy opportunities and issues, inter-departmental land management issues, and also spend time connecting with the landscape. We want the staff walking away from the event to understand the value of protecting wilderness in Utah in a balanced way that is beneficial for all Americans.

Explain how the purpose of the trip relates to your organization's mission.

This trip will help SUWA to show and explain more deeply the importance of America's Red Rock Wilderness Act and present the lands included in it to staffers that may not have been there or fully come to understand the "otherworldliness" of the area. By ensuring that congressional staff have an understanding of the risks to public lands in Utah, our organization will be better able to message our support or opposition to legislation that affects public lands in Utah.
