[✓] I certify that the sponsor does not receive funding from a foreign government.

Purpose and Details

Provide a brief description of the trip.

This privately sponsored tour will provide a first-hand look at California's rapidly increasing use of biodiesel, renewable diesel and sustainable aviation fuel as tools to meet the state's decarbonization goals. It is a valuable opportunity to see how low-carbon fuels are changing how heavy-duty transportation -- including aviation, rail, and fueling infrastructure -- impact communities. With stops at California's Metrolink rail, World Energy Paramount, and Titan Terminals, participants will see how clean fuels are making progress in increasing production, scaling infrastructure, and opening new market opportunities. Presentations by John Deere, Clean Fuels and others will show opportunities for continued environmental improvement in renewable fuel production.

Explain how the purpose of the trip relates to your organization's mission.

The topics covered on this tour meet the Foundation's stated mission to advance the research and education of clean-burning, biomass-based diesel alternatives and their co-products.

Is your organization the only sponsor for this trip?

○ Yes ◉ No

If No, describe your organization's role in planning the trip.

The Foundation is responsible for the overall tour planning and hosting the tour and coordinating agenda topics with joint sponsors participating on the tour.

If there are multiple sponsors, each sponsor must submit Organization Information (Page 1 of the Private Sponsor Travel Certification Form) and a Signature Page Form.

Clean Fuels
Foundation

PO Box 104898
Jefferson City, MO 65110-4898

Dear Catelyn,

On behalf of the Clean Fuels Alliance Foundation (the Foundation) and sponsoring organizations, we'd like to invite you to join us for the September 2024 tour for congressional staff, Sustainable Aviation Fuels and Environmental Justice. The tour will take place in Los Angeles on Friday September 6, 2024, and include two overnight stays. You and other participants will fly to Los Angeles on Thursday September 5 and return to D.C. on Saturday, September 7. Space is limited, so please reserve your spot early. **Reservations must be received by Wednesday, July 17, 2024.**

This privately sponsored tour will provide you a first-hand look at California's rapidly increasing use of biodiesel, renewable diesel and sustainable aviation fuel as tools to meet the state's decarbonization goals. It is a valuable opportunity to see how low-carbon fuels are changing how heavy-duty transportation -- including aviation, rail, and fueling infrastructure -- impact communities. Made from an increasingly diverse mix of resources such as recycled cooking oil, soybean oil, and animal fats, clean fuels are available, affordable solutions for states to address carbon and tailpipe emissions right now.

With stops at California's Metrolink rail, World Energy Paramount, and Titan Terminals, participants will see how clean fuels are making progress in increasing production, scaling infrastructure, and opening new market opportunities. Presentations by John Deere, Clean Fuels and others will show opportunities for continued environmental improvement in renewable fuel production.

Reserve your place on the tour today with an email or phone call to Paul Winters, pwinters@cleanfuels.org, (202) 737-8803. Paul will provide you the registration form and then Foundation staff will coordinate with you for travel, lodging, and ethics paperwork.

Reserve your spot now!

Please contact us if you have any questions.

Sincerely,

Mark Caspers, Foundation Chair

[✓] I certify that the sponsor is not an entity that is owned or operated by a foreign government.

[✓] I certify that the sponsor does not receive funding from a foreign government.

Purpose and Details

Provide a brief description of the trip.

This privately sponsored tour will provide a first-hand look at California's rapidly increasing use of biodiesel, renewable diesel and sustainable aviation fuel as tools to meet the state's decarbonization goals. It is a valuable opportunity to see how low-carbon fuels are changing how heavy-duty transportation -- including aviation, rail, and fueling infrastructure -- impact communities. With stops at California's Metrolink rail, World Energy Paramount, and Titan Terminals, participants will see how clean fuels are making progress in increasing production, scaling infrastructure, and opening new market opportunities. Presentations by John Deere, Clean Fuels and others will show opportunities for continued environmental improvement in renewable fuel production.

Explain how the purpose of the trip relates to your organization's mission.

The topics covered on this tour meet the Foundation's stated mission to advance the research and education of clean-burning, biomass-based diesel alternatives and their co-products.

Is your organization the only sponsor for this trip?

○ Yes ◉ No

If No, describe your organization's role in planning the trip.

The Foundation is responsible for the overall tour planning and hosting the tour and coordinating agenda topics with joint sponsors participating on the tour.

If there are multiple sponsors, each sponsor must submit Organization Information (Page 1 of the Private Sponsor Travel Certification Form) and a Signature Page Form.

Grantmaking Organizations (Optional)

If you have a Grantmaking Organization, you must attach a Grantmaking Organization Certification Form.

Clean Fuels
Foundation

PO Box 104898
Jefferson City, MO 65110-4898

Dear Catelyn,

On behalf of the Clean Fuels Alliance Foundation (the Foundation) and sponsoring organizations, we'd like to invite you to join us for the September 2024 tour for congressional staff, Sustainable Aviation Fuels and Environmental Justice. The tour will take place in Los Angeles on Friday September 6, 2024, and include two overnight stays. You and other participants will fly to Los Angeles on Thursday September 5 and return to D.C. on Saturday, September 7. Space is limited, so please reserve your spot early. **Reservations must be received by Wednesday, July 17, 2024.**

This privately sponsored tour will provide you a first-hand look at California's rapidly increasing use of biodiesel, renewable diesel and sustainable aviation fuel as tools to meet the state's decarbonization goals. It is a valuable opportunity to see how low-carbon fuels are changing how heavy-duty transportation -- including aviation, rail, and fueling infrastructure -- impact communities. Made from an increasingly diverse mix of resources such as recycled cooking oil, soybean oil, and animal fats, clean fuels are available, affordable solutions for states to address carbon and tailpipe emissions right now.

With stops at California's Metrolink rail, World Energy Paramount, and Titan Terminals, participants will see how clean fuels are making progress in increasing production, scaling infrastructure, and opening new market opportunities. Presentations by John Deere, Clean Fuels and others will show opportunities for continued environmental improvement in renewable fuel production.

Reserve your place on the tour today with an email or phone call to Paul Winters, pwinters@cleanfuels.org, (202) 737-8803. Paul will provide you the registration form and then Foundation staff will coordinate with you for travel, lodging, and ethics paperwork.

Reserve your spot now!

Please contact us if you have any questions.

Sincerely,

Mark Caspers, Foundation Chair

Tom Verry, Foundation Director
