ATTACHMENT 1 – CHANGES FROM APPROVED PRE-TRAVEL

Note: Material changes to a trip that occur after the Committee has issued an approval letter may invalidate the Committee's approval. Please contact the Committee with any questions regarding changes to an approved trip.

Were there any changes to the pre-approved travel expenses? (Transportation, Meals, Lodging, Other)?

Yes No

Expense Change	Revised Amount	Explanation
Misc. Expenses	$147.00	This revision includes the removal of the boat fee for the Carbon to Sea visit, and the addition of the cost of the Sky Lagoon.
Meals	$517.58	The total actual cost of meals on the ground was lower than estimated. The total amount per traveler includes the cost of meals at IAD and KEF Airports on 8/5 and 8/8 for staff who chose to submit receipts for reimbursement.
Transportation	$2,569.00	Costs of flights fluctuated from the original estimate to the cost at the time of the booking. The cost of ground transportation was lower than initially expected. The total amount per traveler includes the cost of uber/rideshare to and from IAD airport on 8/5 and 8/8 for staff who chose to submit receipts for reimbursement.

Were there any changes to the pre-approved itinerary?

Yes No

Explanation: Our Friday 8/8 Carbon to Sea briefing and tour aboard a boat was cancelled due to unsafe weather conditions. Instead, we invited the Carbon to Sea staff to give an interactive Q&A presentation over lunch that covered the same content as originally planned. We then took a short tour of the Reykjanes UNESCO Global Geopark. The tour was as an opportunity for staff to learn more about Iceland's geological history as a country with ongoing volcanic activity and how its citizens adapt to volcanic eruptions and develop resiliency policies. UNESCO is a United Nations agency. We also added an optional visit to the Sky Lagoon on the evening of Thurs 8/7. We received a request and input from the U.S. embassy staff that the site is educational and they often bring delegations from the U.S. Congress and other foreign dignitaries there as a means to learn about geothermal energy and Icelandic culture.

Were there any additional changes to the pre-approved trip?

Yes No

Explanation: There were no additional changes to the pre-approved trip.

Purpose and Details

Provide a brief description of the trip.

The 2025 Clean Energy Innovation Academy (CEIA) trip will bring Senate staff to Iceland to tour a number of innovative clean energy facilities such as the ON Power geothermal exhibition, Climeworks Mammoth Direct Air Capture Facility, Carbfix CO2 sequestration facility, Vaxa agriculture facility, Ljósafossstöð Hydropower Station, and the Reykjanes Geothermal Power Plant. Additionally, staff will participate in educational briefings with representatives from the U.S. Embassy in Iceland, the Icelandic Parliament and Ministry of Energy and Environment, and other private sector stakeholders like Business Iceland who are investing in clean energy technologies.

Explain how the purpose of the trip relates to your organization's mission.

ClearPath's mission is to accelerate American innovation to reduce global energy emissions. Participants on this trip will have the opportunity to witness and learn about existing and developing innovative clean energy technologies that Iceland is deploying such as geothermal energy, carbon dioxide removal, hydropower, and carbon capture, utilization, and storage. Additionally, staff will have the opportunity to engage with Icelandic government officials and private sector stakeholders and experts in the field.

Is your organization the only sponsor for this trip?

Yes No
