Clean Fuels
Foundation

PO Box 104898
Jefferson City, MO 65110-4898

Dear Matt,

On behalf of the Clean Fuels Alliance Foundation (the Foundation) and sponsoring organizations, we invite you to join us for the 2025 Clean Fuels New Orleans Congressional Tour, "Sustainable Fuels: Building the Ag Economy." The tour will take place in New Orleans on Friday April 25, and include one overnight stay. You and other participants will fly to New Orleans on Thursday, April 24 and return to D.C. Friday evening. Space is limited, so please reserve your spot early. **Reservations must be received by Wednesday, March 5, 2025.**

This privately sponsored tour will provide you a first-hand look at the integration of agricultural resources and biodiesel, renewable diesel and sustainable aviation fuel production. It is a valuable opportunity to see first-hand how renewable diesel producers and soybean oil processors are investing and scaling up to meet America's demand for clean energy. Made from an increasingly diverse mix of resources such as recycled cooking oil, soybean oil, and animal fats, clean fuels are available, affordable solutions for transportation markets such as heavy-duty trucking, rail, and marine.

With stops at Diamond Green Diesel, Bunge Chevron Ag Renewables, IMTT Terminals and ARTCO river transport, participants will learn how soybeans are processed to separate oil, which is then used to produce renewable diesel. Participants will hear from industry representatives about investments in new technologies and feedstocks as well as the development of new markets and growing demand for clean fuels.

Reserve your place on the tour today with an email or phone call to Paul Winters, pwinters@cleanfuels.org, (202) 737-8803. Paul will provide you the registration form and then Foundation staff will coordinate with you for travel, lodging, and ethics paperwork.

Reserve your spot now!

Please contact us if you have any questions.

Sincerely,

Mark Caspers, Foundation Chair

Tom Verry, Foundation Director

Purpose and Details

Provide a brief description of the trip.

This one-day (and one travel day) privately sponsored tour will provide a first-hand look at the integration of agricultural resources and biodiesel, renewable diesel and sustainable aviation fuel production. It is a valuable opportunity to see first-hand how renewable diesel producers and soybean oil processors are investing and scaling up to meet America's demand for clean energy. Made from an increasingly diverse mix of resources such as recycled cooking oil, soybean oil, and animal fats, clean fuels are available, affordable solutions for transportation markets such as heavy-duty trucking, rail, and marine.

With stops at Diamond Green Diesel, Bunge Chevron Ag Renewables, IMTT Terminals and ARTCO river transport, participants will learn how soybeans are processed to separate oil, which is then used to produce renewable diesel. Participants will hear from industry representatives about investments in new technologies and feedstocks as well as the development of new markets and growing demand for clean fuels.

Explain how the purpose of the trip relates to your organization's mission.

The topics covered on this tour meet the Foundation's stated mission to advance the research and education of clean-burning, biomass-based diesel alternatives and their co-products.
