History of Congressional Travel

AXPC is funding, organizing and conducting the trip with additional logistical support from PureWest Energy, the company whose operations the group is touring. AXPC is providing a field trip to educate participants on oil and gas industry practices, and to provide context to those working on legislative and regulatory issues around oil and gas development. The organization has hosted this type of trip over 20 times over the last 23 years.

Describe the educational activities performed by your organization other than sponsoring congressional travel.

In addition to sponsoring congressional travel, AXPC hosts congressional briefings on environmental stewardship and technological advancements in the oil and gas industry, develops educational materials on energy production, and provides workshops for industry workers on testing protocols, best practices, and regulatory updates.

By providing firsthand exposure to key stages of exploration and production, the trip helps demonstrate the technologies, environmental stewardship, and community engagement practices our members use.
