ATTACHMENT 1 – CHANGES FROM APPROVED PRE-TRAVEL

Note: Material changes to a trip that occur after the Committee has issued an approval letter may invalidate the Committee's approval. Please contact the Committee with any questions regarding changes to an approved trip.

Were there any changes to the pre-approved travel expenses? (Transportation, Meals, Lodging, Other)?

● Yes ○ No

Expense Change	Revised Amount	Explanation
Meals	$680.16	Approved pre-travel meal costs were estimates. The revised total amount is the final cost paid per attendee for all meals.
Transportation	$1,957.45	The pre-approved airfare (both the roundtrip ticket and inter-island ticket) was accurate, but the bus cost was an estimation. This revised total amount is sum of the final charter bus cost and total airfare for each attendee.
Misc. Expenses	$707.01	Misc. charges include items like tipping for non-meals, luggage fees, printing materials, shipping materials, daily refreshments, and other necessities (e.g. sunscreen, first aid kit, etc.). Approved pre-travel misc. expenses total was an estimate, this revised total amount reflects all misc. charges throughout the trip. Price difference is largely attributable to increased prices in Hawai'i as pre-trip estimates were based on previous travel expenses in the continental U.S. for this type of travel. A specific breakdown of per person misc. expenses is below: - $237.64 | The cost of renting space at hotels and event venues for meetings and meals - $203.13 | The cost-of-service fees for meal set up and attendants. - $87.87 | Cost of printing and shipping educational materials and other items necessary for the programming, as well as snacks and refreshments and tips for bus driver and other service industry professionals throughout the trip. - $178.38 | Fees associated with educational briefings and meetings, such as park entrance fees and mandatory tour fees. There are no recreational activities at the parks or other trip sites. TOTAL MISC EXPENSES: $707.01

NATIONAL ASSOCIATION of COUNTIES NACo

August 19, 2026

Dear Rob,

As the Executive Director and CEO of the National Association of Counties (NACo), it is my pleasure to extend an invitation to you as a leader in federal policymaking to participate in NACo's 2026 Federal Fellowship Initiative. This is an invitation-only cohort that will be comprised of congressional staff, White House officials and other federal agency representatives. County governments play a critical role as public service providers for America's citizens. Since 1935, NACo has represented the interests of all of America's 3,069 counties, boroughs and parishes and assisted them in the pursuit of excellence in public service.

NACo's Federal Fellowship Initiative focuses on the importance and structure of America's intergovernmental system, with a specific emphasis on the roles, responsibilities, operations and policy priorities of county governments across the country. As part of the initiative, NACo aims to educate members of Congress, Congressional staff and federal policy officials about the roles and responsibilities of counties across the country.

As important partners in our nation's intergovernmental system, county governments employ one out of every 50 workers, invest more than $743 billion each year in our local communities and provide vital public services that are the foundation of our society. To provide a clearer picture of the full county landscape and the essential role counties play in fostering safe, vibrant and health communities across the nation, NACo recently released an updated County Landscape Project, offering comprehensive information on county structures, maps and statistics, services and workforce, taxes and revenues and election administration.

Members of the cohort will meet several times throughout the year-long Initiative:

- **NACo Federal Fellowship Initiative Pre-Trip Event:** Thursday, September 17, 2026
- **Hawai'i and Honolulu County, Hawai'i Site Visit:** Sunday, October 11 – Saturday, October 17, 2026

During the October in-person, field-based tour located in Hawai'i and Honolulu Counties, participants will engage with federal, state and local leaders, and visit tour sites including Hawai'i Volcanoes National Park, the American Job Center Hawaii, Hawaii County housing developments, Honolulu County Emergency Management, the Hawai'i Institute of Marine Biology and Diamond Head State Monument. **NACo will cover all costs for participant travel, lodging and meals for this site visit and other events associated with the Fellowship Initiative.** For congressional staffers, related Ethic Committee documents will be sent to participants closer to the travel date.

NACo's Associate Director for Grassroots & Legislative Advocacy, Naomi Freel, is available to assist you in any way to coordinate your participation. Please contact Ms. Freel at nfreel@naco.org or 574.440.9952 with questions.

We hope you can accept our invitation and look forward to your participation in our Federal Fellowship Initiative.

Sincerely,

Matthew Chase
Executive Director/CEO

Briefing: Affordable Housing and the County Role
Housing affordability is one of the greatest challenges facing counties across the country, and Hawai'i County is on the front lines of the crisis. Rising home prices, limited housing inventory, increasing construction costs and the growth of short-term rentals have made it increasingly difficult for local families and essential workers to find affordable housing. During this tour, participants will visit county housing projects and hear from local leaders about Hawai'i County's efforts to expand affordable and workforce housing through zoning and land use strategies, short-term rental permitting and enforcement, and federal investments such as Community Development Block Grant (CDBG) funding. Along the way, Fellows will gain firsthand insight into the local impacts of the national housing crisis and discuss how federal policies and partnerships can better support county-led housing solutions.

Briefing: Disaster Response and Federal-County Partnership at Hawai'i Volcanoes National Park

The 2018 Kīlauea eruption destroyed more than 700 homes and displaced thousands of residents, fundamentally reshaping how Hawai'i County approaches disaster response, recovery and community engagement. Participants will tour the park with National Park Service (NPS) officials and Hawai'i County emergency management staff, beginning with an introduction to the roles and responsibilities of the organizations involved in volcanic disaster response, including the NPS, USGS, FEMA and county government. The session will examine the 2018 eruption and the lessons it provided for emergency management, communications and long-term recovery, including how those lessons informed the County's response to the 2022 Mauna Loa eruption and continue to shape current disaster preparedness and response practices.

Participants will explore how Hawai'i County has strengthened coordination across federal, state and local partners and adapted its approach to communicating with residents and the public during an evolving disaster. Speakers will discuss the importance of keeping control of the narrative, providing timely and trusted information and maintaining clear communication with residents as conditions change. The session will also examine the broader economic impacts of volcanic disasters, including effects on local businesses, tourism, housing and county revenues and services. Finally, participants will discuss the role of public trust in effective disaster response and recovery, including how government agencies can build and maintain trust before, during and after a disaster.
