Dear Aria Campos,

Given your congressional oversight role, Malaria No More is pleased to invite you, or another appropriate colleague from your office, to participate in a congressional staff delegation to the Centers for Disease Control and Prevention (CDC) in Atlanta, Georgia, from August 24–25, 2026, to examine the agency's critical contributions to global malaria prevention, control, and elimination efforts.

The delegation will provide participants with a firsthand look at CDC's malaria work and broader global health activities, including briefings with senior leadership and technical experts. Staff will have the opportunity to learn about CDC's role in advancing malaria research, surveillance, outbreak response, and vector control, as well as how these efforts support U.S. global health and national security priorities. The program will also highlight CDC's work under the Department of State's new model for global health foreign assistance and showcase key operational capabilities.

We hope that you will consider joining us. A detailed itinerary will be sent in the coming weeks. If you have questions, please contact me at spencer.knoll@malarianomore.org or (240) 626-5525.

Thank you for your consideration.

Respectfully,
