ATTACHMENT 1 – CHANGES FROM APPROVED PRE-TRAVEL

Note: Material changes to a trip that occur after the Committee has issued an approval letter may invalidate the Committee's approval. Please contact the Committee with any questions regarding changes to an approved trip.

Were there any changes to the pre-approved travel expenses? (Transportation, Meals, Lodging, Other)?

(●) Yes ( ) No

Expense Change	Revised Amount	Explanation
Other Expenses	$44.15	Expense is cost of an Uber from home of traveler to Reagan National Airport.

Were there any changes to the pre-approved itinerary?

(●) Yes ( ) No

Explanation:

Explanation: We made a small change to the itinerary on the last day (April 10) to accommodate a possible last minute schedule change for the return flight to DCA. In the week before this seminar, Delta made same-day changes to the departure time of several BOS - DCA flights, making them leave up to 20 minutes earlier than scheduled. Since this was a real problem for a different seminar we ran the week before this one, we decided to proactively plan for a flight change by cutting the last lunch discussion 'Fitting it all together' by 30 minutes. We then moved up the final tours of The Engine and the Plasma Science & Fusion Center. No time was cut from the tours but we were able to leave for the airport 30 minutes earlier than the original itinerary indicated

Were there any additional changes to the pre-approved trip?

( ) Yes (●) No

Explanation:

Explanation: There were no additional changes to the pre-approved trip.

Mr. Nicholas Wyatt
Professional Staff Member
US Senate Committee on the Budget
624 Dirksen Senate Office Building
Washington, DC 20510

Dear Mr. Wyatt,

I am writing to invite you to attend a seminar for senior Congressional staff at the Massachusetts Institute of Technology. The seminar, "**Energizing the Economy of the Future**," will take place on the MIT campus in Cambridge, MA from April 8-10, 2026.

We are able to cover the cost of travel and hotel accommodations and are carefully following House and Senate Ethics Committee requirements. The necessary ethics approval forms will be provided to you should you apply to attend.

The seminar is sponsored by my office, the MIT Energy Initiative (MITEI), and the MIT Climate Project, and is run by the MIT Washington Office as part of the Institute's non-partisan, educational public service mission designed to support policymakers as they navigate complex technical issues.

If you would like to attend, please apply no later than close of business on **Thursday, March 5** by clicking here. This will allow sufficient time for filing the necessary paperwork with your Ethics Committee by Monday, March 9. Spaces are limited, so early application is strongly suggested.

If you have received this invitation in error and the seminar is not relevant to your portfolio, please feel free to forward it to a colleague who focuses on energy and/or climate issues.

Helen Haislmaier in the MIT Washington Office will be happy to answer any questions, and she can be reached at (202) 789-1828 or at helenh@mit.edu.

Sincerely,

Evelyn Wang

Evelyn N. Wang
Vice President for Energy and Climate, MIT

The Massachusetts Institute of Technology is a 501 (C) (3) educational organization. We anticipate full approval from the House Committee on Ethics and the Senate Select Committee on Ethics to allow staff to travel from Washington, DC to Cambridge, MA. All costs related to participation in the seminar will be covered by MIT with NO outside funding from additional sponsors.

NOTE: If you plan to extend the trip for any reason you **must** notify the Committee.

Explain how this trip is specifically connected to the traveler's official or representational duties.

My portfolio of issues at the Budget Committee includes revenues, among other issues. Over the past several years, energy tax has been a significant part of tax policy, whether in the production or investment tax credits in Sections 45 and 48 of the Internal Revenue Code, in "The Inflation Reduction Act of 2022," or the "One, Big, Beautiful Bill Act." When working on legislation that impacts energy production and especially is intended to incentivize new technologies, it is very helpful to understand how that technology works and how policy makers can incentivize that process. This staff seminar will provide insights into what is needed to bring new tech to market.

Do you have an accompanying family member or spouse on this trip?

Purpose and Details

Provide a brief description of the trip.

"Energizing the Economy of the Future" is an intensive educational seminar presented by MIT faculty with a dinner talk by an industry expert on de-carbonization. The seminar will be held on the MIT campus and utilizes its faculty, classrooms and laboratories. There will be tours of two different research laboratories as well as the Plasma Science Fusion Center and a visit to The Engine, an MIT-affiliated incubator supporting early-stage companies. That visit will highlight two companies working on new energy-related technologies.

Explain how the purpose of the trip relates to your organization's mission.

MIT is a major non-profit research university with a mission focused on education and research in science, engineering and technology. Congressional staff will be exposed to the latest research and thinking about technologies related to energy and climate and associated public policy options. MIT has hosted similar seminars on a wide range of public policy issues related to science and technology for over 25 years.

Transportation Type	Class	Amount
Airfare	Coach	$550.00

Note
Fully refundable coach tickets on regularly scheduled Delta flights. The ticket prices vary according to when they were/are booked but as of 2/25/26, the cost has varied between $440.00 and $550.00 + agent fees.

Ground Transportation	N/A	$56.00

Note
We are using MIT buses to transport the staff from Boston Logan Airport to the campus on 4/8/26 and again to take the staff back to Boston Logan Airport on 4/10/26.

Ground Transportation	N/A	$70.00

Note
Staff are permitted to seek a total of UP TO a total of $70.00 to reimburse them toward the cost of taxis or Ubers from their home to DC's Reagan National airport on 4/8/26 and back to their home from the same airport on 4/10/26. Receipts for these trips must be submitted to the seminar organizer and we are not able to reimburse any amount over $70.00 for the combined trips.

Lodging (Per Member/Officer/Employee: $674.82)

Check-In	Check-Out	Facility	City	State	Country	Nights	Cost/Night	Cost Exceed Per Diem
04/08/2026	04/10/2026	Marriott Residence Inn	Cambridge	Massachusetts	United States	2	$337.41	Yes

Cost Exceeds Per Diem Reason
Actual nightly rate is $291.00 which does not exceed the per diem but with the taxes of $46.42, the final cost is above per diem (but it includes breakfast).

Meals (Per Member/Officer/Employee: $240.00)

Date	Breakfast	Lunch	Dinner	Incidentals	Total	City	State	Country	Cost Exceeds Per Diem
04/08/2026	$0.00	$47.00	$35.00	$11.00	**$93.00**	Cambridge	Massachusetts	United States	Yes

Cost Exceeds Per Diem Reason
The opening lunch includes a formal working lunch in a campus location where there is no choice of caterer but we have chosen the least expensive option on the menu. There is a working dinner at the Residence Inn hotel that evening and we are using the cheapest outside caterer allowed by the hotel.

04/09/2026	$0.00	$30.00	$79.50	$2.50	**$112.00**	Cambridge	Massachusetts	United States	Yes

Massachusetts Institute of Technology

Massachusetts Institute of Technology
Senior Congressional Staff Seminar

Energizing the Economy of the Future

April 8-10, 2026

AGENDA

DAY 1: Wednesday, April 8

Seminar location: **MIT Samberg Conference Center**, 50 Memorial Drive, Cambridge, MA 02142, 6th floor, Dining Rooms 5 & 6

8:40 am **Delta Flight 5687 from Washington, D.C. to Boston, MA**

10:25 am **Land in Boston, MA**

10:35-11:00 am **Ground transportation from Boston Logan Airport to Residence Inn by Marriott Boston Cambridge (MIT bus)**

11:00-11:40 am **Check into Residence Inn by Marriott Boston Cambridge**
120 Broadway, Cambridge, MA 02142

11:40-11:50 am **Bus from Residence Inn by Marriott Boston Cambridge to MIT Samberg Conference Center**

11:50 am-12:00 pm Registration for participants

12:00-1:30 pm **Welcome, introductions and luncheon**
MIT Samberg Conference Center, 6th floor, Dining Rooms 5 & 6

12:15-12:30 pm Participants introduce themselves

12:50-1:20 pm **Evelyn N. Wang**
MIT Vice President for Energy and Climate, Ford Professor of Engineering

Shaping the Energy Future: MIT's Cross-Disciplinary Strategy for Impact
This talk will outline how energy research at MIT is structured across multiple centers and disciplines. It will illustrate how technical research, economic analysis, and policy engagement are coordinated across MIT to examine energy system challenges such as those discussed throughout the seminar.

1:20-1:30 pm ***Attendees transition from lunch space to main seminar space***

1:30-2:45 pm **PANEL 1:**

Massachusetts Institute of Technology

Building Data Centers to Last: Durable Infrastructure for a Fast AI Cycle
Data centers are vital for our digital economy. But the projected demand for hundreds of megawatts of resilient, high-reliability electricity to power future U.S. data centers is a major engineering and policy challenge. The panel will explore how to manage these challenges and how data centers can provide valuable grid services.

- Moderator: **Deepjyoti Deka**, Program Manager, Data Center Power Forum, MIT Energy Initiative
- **Anuradha Annaswamy,** Senior Research Scientist, MIT Department of Mechanical Engineering; Director, Active-adaptive Control Laboratory
- **Pablo Duenas-Martinez**, Research Scientist, MIT Energy Initiative
- **Dean Price**, Atlantic Richfield Career Development Professor in Energy Studies and Assistant Professor, MIT Department of Nuclear Science and Engineering

2:45-4:00 pm **PANEL 2:**
The Abundant Grid
Expanding the capacity of the electrical grid to provide abundant, affordable power wherever it is needed is among our country's biggest infrastructure and policy challenges. The panel will discuss how innovative technology, policy, market design, and resilience strategies can achieve this goal.

- Moderator: **John E. Parsons**, Deputy Director for Research, MIT Center for Energy and Environmental Policy Research; Senior Lecturer, MIT Sloan School of Management
- **Priya Donti**, Silverman (1968) Family Career Development Professor, MIT Department of Electrical Engineering and Computer Science
- **Paul Joskow**, Elizabeth and James Killian Professor of Economics Emeritus, MIT Department of Economics
- **Sungho Shin**, Texaco-Mangelsdorf Career Development Chair Assistant Professor, MIT Department of Chemical Engineering
- **Andy Sun**, Iberdrola-Avangrid Professor in Electric Power Systems and Associate Professor in Operations Research and Statistics, MIT Sloan School of Management

4:00-4:15 pm ***Break***

4:15-4:45 pm **PLENARY TALK:**
Dual-Use Innovation for National Security and Defense Energy Needs

Gene Keselman
Lecturer, MIT Sloan School of Management; Managing Director, Proto

Massachusetts Institute of Technology

Ventures, MIT; Executive Director, MIT Mission Innovation X; Colonel, U.S. Air Force Reserve

Gene Keselman will discuss how MIT Mission Innovation X aligns defense and commercial technology needs in energy and national security, creating accelerated pathways from proof-of-concept in the laboratory to deployment at scale.

4:45-6:00 pm

PANEL 3:
Delivering on the Promise of Fusion, Small Modular Reactors, and Advanced Geothermal Technology
This panel will examine how emerging firm energy technologies can complement variable energy generators to create robust grids delivering electricity 24/7. The characteristics and development timelines of generating facilities powered by fusion, next-generation nuclear fission, and geothermal energy will be discussed, with examples of how each can contribute to the future energy mix.

- Moderator: **Bilge Yildiz**, Breene M. Kerr (1951) Professor, MIT Departments of Materials Science and Engineering and Nuclear Science and Engineering
- **Jacopo Buongiorno**, Battelle Energy Alliance Professor of Nuclear Engineering, MIT Department of Nuclear Science and Engineering
- **Andrew Inglis**, Venture Builder, Geothermal Channel, MIT Proto Ventures
- **Ju Li**, Carl Richard Soderberg Professor of Power Engineering, MIT Departments of Nuclear Science and Engineering and Materials Science and Engineering
- **Cristina Rea**, Principal Research Scientist and Data Science Division Head, MIT Plasma Science and Fusion Center

6:00 pm

Walk to Residence Inn by Marriott Boston Cambridge
Residence Inn by Marriott Boston Cambridge
120 Broadway, Cambridge, MA 02142

Dinner Location: Doc Edgerton Room, Residence Inn by Marriott Boston Cambridge

6:45-8:30 pm

Dinner Discussion:
Led by Christopher Knittel, Associate Dean for Climate & Sustainability, MIT Sloan School of Management and **Catherine Wolfram**, William Barton Rogers Professor of Energy Economics, MIT Sloan School of Management

Professors Knittel and Wolfram will lead a discussion on energy policy research at MIT and will explore gaps in current policy research where universities might play a role in filling those gaps.

Massachusetts Institute of Technology

Panelists:

- **Marilyn Pereboom**, Predoctoral Research Associate, MIT Sloan School of Management
- **Juan Senga**, Postdoctoral Associate, MIT Center for Energy and Environmental Policy Research and MIT Climate Policy Center

Massachusetts Institute of Technology

Massachusetts Institute of Technology
Senior Congressional Staff Seminar

Energizing the Economy of the Future

April 8-10, 2026

AGENDA

Day 2: Thursday, April 9

Seminar location: **MIT Sloan School of Management, 100 Main Street, Cambridge, MA Room E62-350**

7:30-8:30 am **Breakfast at Residence Inn by Marriott Boston Cambridge**
120 Broadway, Cambridge, MA 02142

8:30-8:45 am **Walk to MIT Sloan School of Management, 100 Main Street, Cambridge, MA, Room E62-350**

9:00-9:30 am **PLENARY TALK:**
Why the Future of Computing Is About Energy and Quantum Physics

William D. Oliver, Henry Ellis Warren (1894) Professor of Electrical Engineering and Computer Science, MIT Department of Electrical Engineering and Computer Science; Professor, MIT Department of Physics

Quantum computers are fundamentally different than conventional computers. They promise to address certain problems that are practically prohibitive and even impossible to solve using today's supercomputers. The challenge is building one that is large enough to be useful. In this talk, Professor Oliver will provide an overview of contemporary quantum computing at an intuitive level, including the technology, the promise, the hype, the impact on energy usage, and the challenges ahead associated with realizing useful quantum computers at scale.

9:30-10:45 am **PANEL 4:**
What Will Power Long-Distance Transportation?
The panel will discuss strategies for decarbonizing long-distance transportation while ensuring continued security, reliability, economic growth, and supply chain integrity.

- Moderator: **William H. Green**, Director, MIT Energy Initiative; Hoyt C. Hottel Professor, MIT Department of Chemical Engineering

Massachusetts Institute of Technology

- **Florian Allroggen,** Principal Research Scientist, MIT Department of Aeronautics and Astronautics; Executive Director, MIT Laboratory for Aviation and the Environment
- **Jennifer Morris**, Principal Research Scientist, MIT Center for Sustainability Science and Strategy and MIT Energy Initiative
- **Yuriy Román-Leshkov**, Robert T. Haslam (1911) Professor of Chemical Engineering, MIT Department of Chemical Engineering
- **Themistoklis Sapsis,** William I. Koch Professor of Mechanical and Ocean Engineering, MIT Department of Mechanical Engineering; Director, MIT Center for Ocean Engineering

10:45 am-12:00 pm PANEL 5:

Food, Water, and Energy for a Changing World

This panel will explore how climate change, population growth, and geopolitical shocks are tightening the links among food, water, and energy systems and raising risks to affordability, reliability, and public health. Panelists will discuss innovations in water desalination and reuse, low-carbon fertilizers, resilient agricultural practices, and strategies for advancing scalable solutions.

- **Moderator: Rohit Karnik**, Director, MIT Abdul Jameel Water & Food Systems Lab; Abdul Latif Jameel Professor, MIT Department of Mechanical Engineering
- **Mary Gehring**, HHMI Investigator; David Baltimore Chair in Biomedical Research, Whitehead Institute; Professor, MIT Departments of Biology and Biological Engineering
- **Benedetto Marelli**, Associate Professor, MIT Department of Civil and Environmental Engineering
- **Kripa K. Varanasi**, Professor, MIT Department of Mechanical Engineering

12:00-12:15 pm **Break**

12:15-1:40 pm **Lunch with presentation of MIT Tools for Analysis of Energy Systems**

This lunch session will cover MIT's climate and energy modeling capabilities, demonstrating how they have been and can be used to analyze economic impacts of energy policy.

- Moderator: **Bethany Patten**, Executive Director, MIT Climate Policy Center speaking on En-ROADS
- **Emre Gençer**, Co-Founder and CEO, Sesame Sustainability speaking on SESAME
- **Sergey Paltsev**, Deputy Director, MIT Center for Sustainability Science and Strategy speaking on EPPA

Massachusetts Institute of Technology

- **Juan Senga**, Postdoctoral Associate, MIT Center for Energy and Environmental Policy Research and MIT Climate Policy Center speaking on GenX/Macro

1:40-3:00 pm

PANEL 6:
Beyond Single Points of Failure: Diversifying Critical Mineral Supply
This panel will present new approaches to domestic mining and processing of minerals and related production of high-performance materials. It will explore how increased supply chain diversity can support advanced manufacturing of high-value products and critical technologies within the United States and in partnership with trusted neighbors and allies.

- Moderator: **Elsa A. Olivetti**, Jerry McAfee (1940) Professor in Engineering, MIT Department of Materials Science and Engineering
- **Martin Z. Bazant**, E. G. Roos (1944) Professor of Chemical Engineering and Mathematics, MIT Departments of Chemical Engineering and Mathematics
- **Ariel L. Furst**, Associate Professor, MIT Department of Chemical Engineering
- **Elisabeth B. Reynolds,** Professor of the Practice, MIT Department of Urban Studies and Planning
- **Richard Roth**, Director, MIT Materials Systems Laboratory

3:00-5:30 pm

Tour of Campus Research Laboratories

3:00-3:25 pm:

Walk to MIT Earth Resources Laboratory
MIT Green Building 54, 2nd floor, 21 Ames St., Cambridge, MA 02139

3:25-4:25 pm

Tour of Earth Resources Laboratory
The Earth Resources Laboratory develops innovative strategies for sustainably addressing societal needs including energy production, critical minerals access, and capture of atmospheric carbon dioxide.

Oliver Jagoutz, Cecil & Ida Green Professor of Geology, MIT Department of Earth, Atmospheric & Planetary Sciences; Director, Earth Resources Laboratory

Instructions for tour attendees:

- Normal street shoes are okay.
- Photography is allowed.

4:25-4:40 pm

Walk to the Atomistic Simulation & Energy Lab
MIT Building 31, 3rd floor, 70 Vassar St., Cambridge, MA, 02139

Massachusetts Institute of Technology

4:40-5:40 pm **Tour of Atomistic Simulation & Energy Lab**

Researchers in the Atomistic Simulation and Energy Lab are using new insights into the process of heat transfer to develop novel systems for efficiently storing energy. The tour will highlight technologies such as a prototype Thermal Energy Grid Storage system, which takes a "sun in a box" approach to low-cost, large-scale energy storage.

Asegun Henry, Hatsopoulos Professor in Thermodynamics & Area Head for Energy Science and Engineering, MIT Department of Mechanical Engineering; Founder, Thermal Battery Corporation

Instructions for tour attendees:

- Closed-toe shoes are required.

5:40-5:50 pm ***Walk back to Residence Inn***

6:30-6:45 pm ***Walk to Samberg Conference Center***
50 Memorial Drive, Cambridge, MA, 02142

6:45- 8:45 pm **DINNER TALK**
MIT Samberg Conference Center, 7th Floor, Salon M, 50 Memorial Drive, Cambridge, MA, 02142

Accelerating Energy Innovation: Promising Technologies for Deployment at Scale
Libby Wayman, Senior Partner, Breakthrough Energy Ventures

Libby Wayman will discuss strategies to drive affordable and reliable clean energy technologies to scale and explain how investors like Breakthrough Energy Ventures identify, evaluate, and support innovative approaches to decarbonizing the global economy.

Massachusetts Institute of Technology

Massachusetts Institute of Technology
Senior Congressional Staff Seminar

Energizing the Economy of the Future

April 8-10, 2026

AGENDA

Day 3: Friday, April 10

Seminar location: **Doc Edgerton Room, Residence Inn by Marriott Boston Cambridge**
120 Broadway, Cambridge, MA 02142

7:30-8:45 am **Continental breakfast at hotel/check out**
(Bags should be packed and left with the front desk)

9:00-9:30 am **Introductory remarks**
Carolyn Ruppel, Deputy Director for Science and Technology, MIT Energy Initiative

PLENARY TALK:
Transforming discoveries into market-ready innovations to provide affordable, clean, and reliable energy

William H. Green
Director, MIT Energy Initiative; Hoyt C. Hottel Professor of Chemical Engineering

Professor Green will discuss the path that researchers must navigate to move the most promising basic research outcomes from the lab to commercialization, touching on some related investment and policy challenges.

9:30-10:45 am **PANEL 7:**
Innovation: The Long Road from Invention to Impact
This panel will explore the challenges to "Tough Tech" commercialization in the energy sector and energy-intensive industries. To integrate new technology into established infrastructure and legacy industries, innovators must address long development timelines and large capital needs Panelists will discuss how scientists from MIT and other research organizations interact with investors and technology accelerators to overcome these challenges.

- Introductory remarks and moderator: **Michael Kearney**, General Partner, The Engine Ventures
- **Antoine Allanore**, Professor of Metallurgy, MIT Department of Materials Science and Engineering; Co-Founder, Boston Metal

Massachusetts Institute of Technology

- **Matthew Munderville**, Senior Program Director, MIT Plasma Science and Fusion Center and MIT Energy Initiative
- **Veronika Stelmakh**, CEO and Co-Founder, Mesodyne

10:45-11:00 am *Break*

11:00 am-12:30 pm Lunch and Discussion:
Fitting it all together, discussion & seminar evaluation
To help seminar attendees synthesize a fuller picture of evolving energy systems, Professors Green, Knittel, and Wang will facilitate a review of the entire seminar and lead a question-and-answer session.

12:30-3:30 pm **Lab Tours**

12:30-12:45 pm: ***Bus to The Engine***
750 Main St, Cambridge, MA 02139

12:45-1:45 pm **Tour of The Engine**
The Engine is an MIT-affiliated incubator and accelerator that supports early-stage companies working to develop solutions to "Tough Tech" challenges like the energy transition. The tour will highlight the work of two companies currently in residency at The Engine that illustrate its approach to bringing new ideas from lab to market.

Host: **Will Rasky**, Public Policy Advisor, The Engine

1:25-1:30 pm: Arrival + belongings drop (Event Space)
1:31-1:35 pm: Welcome + overview of The Engine
1:35-1:39 pm: Copernic presentation in Event Space
1:40-1:44 pm: Mantel presentation in Event Space
1:45-1:58 pm: Comments from Founders and Q&A (2-3 questions total, facilitated by The Engine)
2:00-2:15 pm: Split into 2 tour groups (~20 each)
2:15-2:20 pm: Wrap + departures

Instructions for tour attendees:
- Closed-toe shoes are ideal.
- Photography does need to be limited in certain spaces.

Highlighted Companies in Residence:

- **Mantel**
  Sean Robertson, Chief Technology Officer
  Mantel is developing a carbon capture technology which can operate at the high temperatures found inside boilers, kilns, and furnaces, enabling highly efficient reduction of industrial emissions.

Massachusetts Institute of Technology

Instructions for tour attendees:

- Closed toe shoes and pants are required.
- No food or beverage.
- All other PPE will be provided on site.
- Photos are allowed.

- **Copernic Catalysts**
  Jacob Grose, CEO and Co-Founder
  Copernic Catalysts is using computational design to develop revolutionary catalysts for sustainable, low-cost production of ammonia, low-carbon drop-in replacement fuels, and other chemicals used in large-scale energy and agricultural applications.

Instructions for tour attendees:

- All participants must wear closed toe shoes.
- No photography or videos.

1:45-2:00 pm ***Bus to the MIT Plasma Science & Fusion Center***
Building NW16, 175 Albany St., Cambridge, MA 02139

2:00-3:30 pm **Tour of MIT Plasma Science & Fusion Center**
Scientists and engineers at the MIT Plasma Science and Fusion Center will highlight recent advances in fusion science and technology and showcase the experimental facilities of the internationally renowned center. They will describe ongoing work at the PSFC, including collaborations with MIT spinout Commonwealth Fusion Systems and other commercial fusion companies aiming to put the first grid-scale fusion power plants online in the early 2030s.

Host: **Earl S. Marmar**, Associate Director, MIT Plasma Science and Fusion Center; Senior Scientist, MIT Department of Physics

Instructions for tour attendees:

- All participants must wear closed toe shoes and ankle-length pants or skirts.
- Photos of MIT PSFC hallway walls may be photographed
- MIT PSFC lab spaces cannot be photographed. The tour guides in these spaces will confirm whether photography is permitted.

3:30-4:00 pm **Board bus in front of MIT Plasma Science & Fusion Center/Travel to Boston Logan Airport**

5:55 pm **Delta Flight 5667 from Boston Logan Airport to Washington, D.C. Ronald Reagan National Airport**

7:55 pm **Land at Ronald Reagan National Airport, Washington, D.C.**
