Note: Material changes to a trip that occur after the Committee has issued an approval letter may invalidate the Committee's approval. Please contact the Committee with any questions regarding changes to an approved trip.

Were there any changes to the pre-approved travel expenses? (Transportation, Meals, Lodging, Other)?

● Yes ○ No

Expense Change	Revised Amount	Explanation
Transportation	$160.00	Transportation costs per participant increased from $132 to $160 as several invited participants could not attend due to last-minute scheduling conflicts/illness, reducing the total number of travelers.
Misc. Expenses	$408.00	Miscellaneous expenses increased from $371 to $408 per participant due to the reduced total number of participants and additional A/V equipment needs.
Meals	$179.00	Costs for meals increased from $159 to $179 due to costs associated with the Regional Resilience Networking Showcase reception on Saturday, March 7th.

Were there any changes to the pre-approved itinerary?

● Yes ○ No

Explanation: An updated itinerary with actual start/end times based on actual travel times and lecture/Q&A overruns has been provided to each traveler for submission. Please see the summary below of location and speaker changes. • Friday, March 6th o The location of the working lunch and project overview was shifted to the Slover Library (235 E Plume St, Norfolk, VA 23510 – Community Room 650) due to a scheduling conflict at the Grandy Village Learning Center. o The overview of the Norfolk Coastal Storm Risk Management Project was shifted to be part of the working lunch instead of occurring after the walking tour as Audio/Visual equipment was not available at the walking tour location. o Kyle Spencer (Chief Resilience Officer, Norfolk Resilience Department) was unable to join the Friday overview/tour. o Bryan Pennington (Director of Government Relations, Norfolk Office of Intergovernmental Relations) joined the working lunch and overview presentation providing brief remarks on how the city partners with local, state, and national government entities on infrastructure projects. o The name of the evening learning module was updated from "Coastal Resilience" to "Coastal Impacts" to better reflect the content of the presentations. • Saturday, March 7th o Lacy Shirey (Executive Director, Elizabeth River Project) and Luísa Black Ellis (Director of Resilience & Community Engagement, Elizabeth River Project) were unable to join the afternoon site visit. An alternative presenter could not be confirmed so climate impacts on coral reefs was not addressed as a lecture topic. o The "future of oceans" panel was changed to facilitated small group discussions.

Explanation: There were no additional changes to the pre-approved trip.

On behalf of the National Academies of Sciences, Engineering, and Medicine, we're pleased to invite you to the Climate Crossroads Congressional Fellowship Weekend Seminar in Norfolk, Virginia from March 6th – 8th, 2026. The weekend seminar will be the keystone experience of the fellowship, and we look forward to facilitating an enriching and rewarding weekend for you and your cohort of fellows. Please let us know by January 26th if you anticipate not being able to join the Weekend Seminar.

The Climate Crossroads Congressional Fellowship has been established to provide current Congressional staff with a solid grounding in the science, engineering, and health dimensions of climate change, as well as opportunities to engage in dialogue with colleagues from a range of policy backgrounds. The weekend seminar is a key component of a series of fellowship activities, and over the course of the three-day seminar fellows will have the opportunity to learn about climate-related topics from National Academies staff, invited experts, and local organizations. The seminar is funded by the National Academies and includes costs for transportation, meals, and accommodations. Meals and accommodations will comply with federal per diem rates.

Weekend Seminar Itinerary

Activities will include "classroom" sessions on coastal resilience, planning and infrastructure, and oceans. The sessions will be complemented by field visits to the City of Norfolk's Office of Resilience Ohio Creek Watershed Project and Elizabeth River Project's Ryan Resilience Lab.
