**THIRD-ANNUAL PROSPERITY SUMMIT**

*"The Great American Industrial Race"*

**Ponte Vedra Inn & Club — Ponte Vedra Beach, Florida**
**February 17-18, 2026**

**Join us in Florida for the Nation's Premier Policy Retreat**

As America races to win the 21st-century industrial race, the Coalition for a Prosperous America Education Fund (CPAEF) invites you to join us for the Third Annual Prosperity Summit — the nation's most exclusive policy retreat focused on strengthening U.S. industrial capacity, rebuilding supply chains, and securing our economic future.

The Prosperity Summit brings together senior Senate and House staffers, industry executives from over a dozen sectors of the U.S. economy, and policy experts driving America's next generation of trade and economic policy. Over the course of a full day, participants will engage in thought-provoking panels focused on the most critical areas of trade, tariffs, industrial policy, tax, and U.S. economic and national security.

***Summit Agenda***

**Tuesday, February 17th, 2026**

**3:59 PM – 6:10 PM** **Congressional Staff Flight to DCA → JAX** (AA2633)

**7:30 PM – 8:30 PM** **Congressional Staff Dinner** (Optional)

**Wednesday, February 18th, 2026**

**8:00 AM – 9:00 AM** **Networking Breakfast** | Stockton AB

Start the day with coffee, conversation, and connection. CPAEF staff will facilitate introductions between congressional attendees and industry leaders across key sectors of the U.S. economy.

**9:00 AM – 9:10 AM** **Opening Session – "Winning the Great American Industrial Race" |** Stockton AB

Join CPAEF leadership for opening remarks framing the challenges and opportunities of America's reindustrialization race.

Topics: The global competition for industrial leadership, U.S. manufacturing revival, and how policy can secure America's economic future.

**9:10 AM – 9:30 AM** **Industry Spotlights – "Meet the Makers"** | Stockton AB

A fast-paced session where industry leaders briefly introduce their companies, sectors, and priorities.

**9:30 AM – 10:15 AM** **Panel 1 – Section 232: Protecting America's Industrial Base** | Stockton AB

Explore how Section 232 investigations serve as a powerful tool to safeguard critical U.S. industries. This panel will examine current and potential investigations, including those addressing imports of solar products, aluminum, steel, and critical minerals — and how their outcomes will shape the next phase of America's reindustrialization strategy.

Panelists:

- Beth Baltzan, former Counselor for Trade and Investment to the United States Trade Representative
- Mihir Torsekar, Senior Economist, Coalition for a Prosperous America
- Andrew Rechenberg, Senior Economist, Coalition for a Prosperous America
- Jeff Ferry, Chief Economist Emeritus, Coalition for a Prosperous America

**10:15 AM – 10:45 AM** **Special Economic Briefing — Modeling How Trade Policy Actually Impacts the U.S. Economy** | Stockton AB

CPA's Chief Economist Emeritus Jeff Ferry will present a new and improved version of CPA's modified Global Trade Analysis Project (GTAP) trade model, which has more accurately predicted the real-world effects of trade policy changes than the standard models relied on by most Washington-based think tanks. The briefing will look at how trade policies affect specific groups of workers. Ferry will also explain why conventional trade models have consistently failed to accurately predict outcomes for U.S. industry and workers—and how CPA's new GTAP-USL model better captures the impact of tariffs, enforcement, and industrial policy on domestic production, investment, and employment on US workers and the US economy.

**4:15 PM – 5:00 PM Panel 5 – Batteries on a Wartime Footing: Reclaiming Control of America's Energy Storage Supply Chain |** Stockton AB

Batteries underpin America's transportation systems, critical infrastructure, and defense-adjacent industries, yet U.S. supply-chain security is increasingly shaped by foreign control of refining and processing rather than access to raw materials alone. This panel will examine how dependence on externally controlled midstream battery materials—particularly in lithium, nickel, graphite, rare earths, and lead-acid inputs—creates vulnerabilities through supply disruption, price volatility, and suppressed domestic investment. Panelists will discuss the policy tools needed to restore control over these chokepoints, including tariffs, Section 232 authorities, demand-anchoring mechanisms, and targeted industrial strategies to rebuild domestic and allied processing capacity and place America's battery supply chain on a wartime footing.

U.S. investors are unwittingly financing this project and the Chinese Communist Party's other nefarious activities, including Chinese purchases of key industrial assets in the United States. This address will examine the state of play and explore policies to claim the commercial space sector for U.S. and allied companies, cut off the flow of U.S. capital to the CCP in this and other sectors, and block malign foreign investment into the United States.
