CLEARPATH

January 15, 2026

To: Chris Prandoni
Senate Energy & Natural Resources Committee

Dear Chris,

It is our pleasure to invite you to join an educational Congressional staff delegation trip to Japan from May 23-30, 2026.

The purpose of this delegation is to educate U.S. Senate staff through firsthand exposure to how a key U.S. ally is advancing nuclear energy, liquified natural gas (LNG) infrastructure, and industrial innovation, and by fostering a deeper understanding of how these developments relate to U.S competitiveness, and global energy leadership.

Potential engagements include meetings with Japanese government ministries, financiers, and industry leaders, and site visits to the Fukushima nuclear facility, the Sodegaura LNG Terminal, and Mitsubishi.

Participation in this staff delegation trip will require the submission of the appropriate Senate Ethics travel forms sent through the Senate Ethics Privately Sponsored Travel Portal in advance of **Thursday**, **April 23rd.**

For further information or any questions you may have, please contact Amanda Sollazzo at sollazzo@clearpath.org. We sincerely hope you will join us on this educational trip.

Sincerely,

Jeremy B. Harrell
Chief Executive Officer
ClearPath

Please note that this invitation is non-transferable.

ClearPath is a 501(c)(3) nonprofit organization, and this privately sponsored trip is designed to comply with U.S. Senate Ethics Rules.

Purpose and Details

Provide a brief description of the trip.

The 2026 Clean Energy Innovation Academy (CEIA) trip will bring Senate staff to Japan to tour a number of innovative Japanese clean energy facilities such as the JERA Futtsu Thermal Power Station, the Rokkasho Nuclear Complex, and the Fukushima Daiichi Nuclear Power Plant site. Additionally, staff will participate in educational briefings and dialogues with the U.S. Ambassador to Japan, the Japanese Bank for International Cooperation, the Japanese Ministry of Economy, Trade and Industry, and the Japanese Ministry of Foreign Affairs and other private sector stakeholders like Mitsubishi Heavy Industries who are developing and investing in American clean energy technologies.

Explain how the purpose of the trip relates to your organization's mission.

ClearPath's mission is to accelerate American innovation to reduce global energy emissions.Participants on this trip will have the opportunity to witness and learn about existing and developing innovative clean energy technologies that Japan is deploying such as nuclear energy and nuclear fuel reprocessing, and liquefied natural gas (LNG). Additionally, staff will have the opportunity to engage with Japanese government officials working on international energy financing, economic development and energy security, as well as other private sector stakeholders and experts in the field.

Lodging (Per Member/Officer/Employee: $2,076.00)

Check-In	Check-Out	Facility	City	State	Country	Nights	Cost/Night	Cost Exceed Per Diem
05/24/2026	05/26/2026	Aloft Tokyo Ginza	Tokyo		Japan	2	$352.00	No
05/26/2026	05/28/2026	Nambuya Kaisenkaku	Aomori		Japan	2	$334.00	Yes

Cost Exceeds Per Diem Reason
This hotel is in a rural part of Japan. In this part of Japan there are not many options for hotels with single occupancy rooms. The cost of breakfast, dinner and VAT is included in the nightly rate.

05/28/2026	05/30/2026	Aloft Tokyo Ginza	Tokyo		Japan	2	$352.00	No

Meals (Per Member/Officer/Employee: $497.00)

Date	Breakfast	Lunch	Dinner	Incidentals	Total	City	State	Country	Cost Exceeds Per Diem
05/23/2026	$0.00	$30.00	$0.00	$0.00	**$30.00**	Dulles	Virginia	United States	No

- ***Transportation:*** Coach Bus
- ***Briefer:*** *Hillary O'Brien, Managing Director of Policy, ClearPath*
- ***Topic:*** This educational briefing will focus on NASA research and development for American energy security, complemented by insights from a site visit to the JERA Futtsu Thermal Power Station in Japan. Improved methane monitoring can strengthen U.S. energy competitiveness and support global LNG markets in Europe and Asia. Drawing on both advanced research and real-world operational perspectives, the briefing will highlight current methane measurement gaps, the role of satellite-based observation, and how federal research agencies like NASA steward unique expertise to advance emissions tracking across the natural gas supply chain—reinforcing American energy leadership while supporting innovation-driven, market-based solutions.

2:00 PM - 4:00 PM – Tour of JERA Futtsu Thermal Power Station

- ***Location:*** 25 Shintomi, Futtsu, Chiba 293-0011, Japan
- Transportation within site: JERA internal bus OR ClearPath bus
- ***Briefers:***
  - *Andee Yu, Senior Global Communications Lead, JERA*
  - *Additional names and titles of JERA staff are forthcoming*
- ***Topic:*** This will be a site visit of the JERA Futtsu Thermal Power Station in Chiba. Futtsu Power Station is a cornerstone of Japan's energy infrastructure. It serves a dual role as both a massive power generation hub and one of the country's largest LNG import terminals. With a total output of 5,160 megawatts, the station provides a stable supply of electricity to the Tokyo metropolitan area. The facility's high efficiency is driven by advanced gas turbines manufactured by GE Vernova in Greenville, South Carolina. This use of American engineering, combined with the fact that the U.S. provides ~10% of Japan's total LNG imports, highlights a significant economic and technical partnership

between the two nations. By utilizing American energy and hardware, the Futtsu facility helps Japan maintain a reliable power grid.

RON - Aloft Ginza

Tuesday, May 26th

7:30 AM - 8:30 AM – Breakfast at Hotel

- ***Location:*** The Warehouse, Floor 2, Aloft Ginza
- ***Briefer:*** *Jacob Kincer and Justin Williams – ClearPath*

- ***Topic:*** This briefing will familiarize attendees with recent United States - Japanese trade and investments deals ahead of engagements with the U.S. Ambassador and his team. Specifically, we will focus on details regarding the Trump Administration's 2025 U.S.-Japan trade and investment deal that centers on a $550 billion Japanese investment commitment into U.S. strategic industries, with official implementation steps finalized in October 2025. Of that total, about $300 billion is expected to support energy-sector projects, including LNG, grid modernization and nuclear development.

8:30 AM - 9:00 AM – Check out of hotel

9:00 AM – 9:30 AM – Travel to the U.S. Embassy Tokyo

- ***Transportation:*** Coach Bus
- ***Briefer:*** *Jeremy Harrell, Chief Executive Officer, ClearPath*
- ***Topic:*** This educational briefing introduces the current landscape of U.S.-Japan energy cooperation and Ambassador George Glass' role in advancing the strategic partnership between our two nations. It will explore why the U.S. and Japan are uniquely positioned to lead in energy innovation, providing the necessary context for our upcoming discussion on opportunities to strengthen regional energy security and technological leadership.

9:30 AM - 11:30 AM – Meeting at U.S. Embassy Tokyo

- ***Location:*** *Embassy of the United States, 1-chōme-10 Akasaka, Minato City, Tokyo 107-0052, Japan*
- ***Briefer:***
  - *George Glass, U.S. Ambassador to Japan*
  - *Cameron Salony, Director - Japan Office, U.S. Department of Energy*
- ***Topic:*** This meeting will provide critical context on U.S.-Japan relations and the evolving energy and business landscape. With a focus on nuclear energy and liquefied natural gas (LNG), the conversation will examine how U.S.-Japan cooperation can strengthen energy security, reinforce supply chain resilience and counter the influence of state-subsidized competitors in global energy markets. The discussion will also explore opportunities to expand exports of American energy technologies and services, align financing and regulatory approaches and deepen commercial partnerships between U.S. and Japanese firms to advance shared strategic and economic interests.

11:30 AM - 12:00 PM – Travel to Tokyo Station

  - *Akimi Imai, Head of Public Affairs, Japan Nuclear Fuel Limited (JNFL)*
  - *Kouji Kosugi, General Manager, International Cooperation Dept. & Reprocessing Div. (Information Management), Japan Nuclear Fuel Limited (JNFL)*
- ***Interpreter:*** Shizuka Kitamura
- ***Topic:*** This will be a visit to the Rokkasho Nuclear Complex, which is operated by Japan Nuclear Fuel Limited (JNFL). This facility is an ongoing megaproject that the Japanese government has invested billions of dollars into as a strategic energy security priority. This facility represents a major step toward a "closed" nuclear fuel cycle, and is used for enrichment, reprocessing, production of MOX fuel, and for low-level waste management. The briefing will cover the basics of these technologies, and their significance for Japan's national security, the economic and technological partnership with the U.S., and relevant sustainability and non-proliferation considerations.

- ***Agenda:***
  - 9:30 AM - 10:00 AM – Greeting and Briefing on the current status of JNFL
  - 10:00 AM - 10:30 AM – Tour of PR center
  - 10:30 AM - 11:25 AM – Lunch
  - 11:25 AM - 12:25 PM – Tour of MOX Fuel Fabrication Plant
  - 12:25 PM - 12:35 PM – Tour of Reprocessing Plant

- 12:35 PM - 12:55 PM – Tour of Vitrified waste Storage Center
- 12:55 PM - 1:35 PM – Tour of Spent Fuel Receiving and Storage Facility
- 1:35 PM - 2:15 PM – Explanation of safeguards system in front of IAEA Inspector's Room
- 2:15 PM - 2:25 PM – Tour of Main Control Room
- 2:25 PM - 3:25 PM – Tour of Enrichment Plant
- 3:25 PM - 4:00 PM – Closing Session and Questions
- 4:00 PM - Departure from Main Office

4:00 PM - 5:00 PM – Travel to Nambuya Kaisenkaku hotel

- ***Location:*** Private Room, Floor 1, 039-3501 Aomori, Asamushi, Hotarudani−31
- ***Briefer:*** *Executives from Japan Nuclear Fuel Limited – names and titles forthcoming*
- ***Topic:*** Following the site visit, this dinner with Japan Nuclear Fuel Limited (JNFL) executives serves as a forum to reflect on the technical insights gained from the Rokkasho Nuclear Complex into a broader strategic context. The discussion will transition from the day's tours of enrichment and reprocessing facilities to a high-level dialogue on Japan's long-term vision for a closed nuclear fuel cycle as a pillar of national energy security. This dinner will focus on shared opportunities for technological innovation, fuel supply chain resilience and industrial collaboration. This session provides an opportunity to align the day's observations with the geopolitical and economic objectives that underpin the bilateral energy relationship.
